

TABLE OF VEGETABLE PLANTING & PERIOD OF USE

An approximate guide - Metric measurements

Crop	Times of sowings/plantings	Space required		Period of use
		Rows	Plants	
Beans, Broad	February, March or November	60cm	15cm	June-July
Beans, French	April - May	60cm	23 cm	July-August
Beans, Runner	May	75cm	23 cm	July-October
Beetroot	April-June	30cm	10cm	Year round
Broccoli, Sprouting	April-May; plant June-July	60cm	60cm	February-May
Broccoli, Winter	April-May; plant July 15	60cm	60cm	December-May
Brussel Sprouts	March-April; plant May-June 15	60-75cm	75cm	October-March
Cabbage, Spring	July-August; plant September-October	45cm	23cm; thin out for Spring Greens	March-May
Cabbage, Summer	April; plant May-June	60cm	60cm	July-September
Cabbage, Autumn	May; plant June	60cm	60cm	September-October
Cabbage, Winter	May, Plant July 1-15	60cm	60cm	November-January
Cabbage, Savoy	May, Plant July 1-15	60cm	60cm	November-March
Carrots, Early	March-April	30cm	5-8cm	June-August
Carrots, Main Crop	May-June 10	30cm	5-8cm	September-May
Carrots, Late Sown	July-August 7	30cm	5-8cm	November-December
Cauliflower, Summer	March; plant April-June 10	60cm	60cm	July-September
Cauliflower, Autumn	April-May	60cm	60cm	October-March
Celery	Plant May-June	Trench	23 cm	October-February
Kale	April-May; plant June-July 15	60cm	60cm	November-March
Leeks	March-April; plant June-August	30-38cm	23 cm	October-April
Lettuce, Summer	March onwards	30cm	23 cm	May-October
Lettuce, Winter	August 25 - September 5	30cm	15cm	April-May
Marrow	May	90-150cm	90-150cm	July-November
Onions	End August; plant out March	30cm	12-15cm	August-June
Onions from sets	Plant mid March	30cm	10-15cm	August-June
Onions	March	30cm	5-8cm	August-June
Onions, Salad	End August / March onwards	30cm	-	As required
Parsnips	February-April	30-45cm	15cm	November-March
Peas, Early	March, April or November	75cm	8cm	June-July
Peas, Maincrop	April-May	75cm	8cm	July-August
Potatoes, Early	March	60cm	30-38cm	July-November
Potatoes, Maincrop	April	67-75cm	38cm	October-June
Radishes	March onwards	30cm	-	As required
Shallots	February-March	30cm	15cm	July-March
Spinach, Summer	March-April	30cm	15cm	June
Spinach, Winter	August 25 - September 5	30cm	15cm	Spring
Spinach Beet or Sea Kale Beet	August 25 - September 5	30cm	23cm	Spring
Swedes	Mid June	30cm	15cm	October-March
Tomatoes	March-April; plant end May	60cm	37-45cm	July-October
Turnips	March, April or July	30cm	15cm	June-November
Turnip Tops	July-August	30cm	5cm	Spring

TABLE OF VEGETABLE PLANTING & PERIOD OF USE

An approximate guide - Imperial measurements
